

User Experience Stories:

Admin (Phase One)

As an admin, I can set a one-time password for a user who has forgotten their password. Using that one-time password, the user can log in to establish a new password. Once a user has logged in with the one-time password, it is cleared so it can't be used again. After setting a new password, the user must log in again.

As an admin, I can "delete" a user account so individuals who are no longer associated with the organization are unable to use the system. An admin is not allowed to remove that admin's access. (If an admin must be removed, some other admin must do it to ensure that at least one admin is available to do admin work.) When deleting an account, an "Are you sure?" message must be answered with "Yes" to remove access.

As an admin, I can list all user accounts to help me perform my administrative functions. The list shows each account's username, the user's name, the user's email address, and the roles the user plays.

As an admin, I can add or remove roles for each user.

TP1 Team Plan

Kickoff meeting: Fri, Sep 11, 2026 **Due:** Wed, Sep 23, 2026

Schedule Overview

Date	Milestone
Sep 11 (Fri)	Kickoff meeting, tasks assigned
Sep 13 (Sun)	Shared UI look defined, Team Norms drafted, Sprint Backlog done
Sep 16 (Wed)	Core features first working (list, validator, delete, roles, one-time password)
Sep 18 (Fri)	First integration merge
Sep 19 (Sat)	Feature work and validation checks complete
Sep 21 (Mon)	Final merge and full regression testing

Sep 22 (Tue) Bug fixes done, all PDFs and Design Documents folder finalized

Sep 23 **Final review and submission**
(Wed)

V.G.

Build:

- Admin sets a one-time password for a user who forgot theirs — **Sep 15**
- User logs in with it, is forced to set a new password, one-time password is cleared — **Sep 17**
- User must log in again after setting the new password — **Sep 17**
- Wire Joshua's password validator and dynamic-feedback component into the "set new password" screen — **Sep 19** (after the validator is delivered Sep 16)

Paperwork:

- Captain Input Validation.pdf: list every TP1 input field and its rule — **Sep 20**
- Provide the reusable username validation helper (from HW1) — **Sep 14**

K.G.

Build:

- Define the shared UI look (colors, layout, buttons) that every feature owner applies to their own screens — **Sep 13**
- Admin selects an account, sees "Are you sure?" confirmation; "No" does nothing, "Yes" removes access — **Sep 16**
- Prevent an admin from deleting their own access — **Sep 16**

Paperwork:

- Assemble Team Norms doc (everyone suggests, approves, and signs) — **Sep 14**
- Captain User Experience.pdf — **Sep 20**

J.L.

Build:

- Admin screen listing every account: username, name, email, roles — **Sep 15**

- Reusable password validator component (logic only, using PasswordEvaluationTestbed-F26) — **Sep 16**

Paperwork:

- Captain TP1 Test Cases.pdf: collect tests from every feature owner — **Sep 19**
- Run full regression across all features — **Sep 21**
- Track bugs to fix and confirm they are resolved — **Sep 22**

A.G. (agupt515)

Build:

- Admin can add/remove roles for a user — **Sep 16**
- Replace placeholder Role1/Role2 with the team's actual named roles, following the same pattern for any additional roles needed — **Sep 17**

Paperwork:

- Captain TP1 Plan.pdf — **Sep 12**
- Captain Sprint Backlog.pdf — **Sep 13**

A.G. (agupt545)

Build:

- Verify the existing invitation feature meets spec (deadline enforced, expired/used codes removed) — **Sep 15**
- Merge everyone's work, resolve conflicts, confirm nothing broke across features — first merge **Sep 18**, final merge **Sep 21**
- Keep the app looking like one team built it — **Sep 21**

Paperwork:

- Captain TP1 Design Documents folder — **Sep 22**

Cross-Cutting (Everyone)

- Add max-length/size checks to your own text fields — **Sep 19**
- Test your own feature and hand off test cases to J.L. — **Sep 19**
- Final review and submission — **Sep 23**
